

MICRODERMABRASION... UNCOVER THE BEAUTY WITHIN!

Achieve softer, smoother, more vibrant looking skin...

Minimize the appearance of wrinkles, acne,
sun damage, and scarring

The Portapeel system is convenient and hassle free with its fully disposable, self-contained Crystal Capsules. These dual chamber capsules house both the crystal supply and waste, so when all the new crystal has been used, simply dispose of the entire capsule and replace with a new one. This system eliminates the need to refill crystal supply, empty waste, and change filters, saving you time and money.
